## ***\$12 Million Dollar Ground Breaking***

One Water Street Development in Boyne City

Catt Development broke ground on their \$12 million dollar One Water Street development in Boyne City last month. The NLEA helped facilitate Brownfield cleanup financing with the city, the city DDA, the Charlevoix County Brownfield Redevelopment Authority, the county, the MDEQ and the MEDC. Here hazardous substances are being remediated on the former railroad roundhouse site. The retail phase should be open in May 2010. Click here for more information on [Catt Development](#)
