VAN DAM CUSTOM BOATS FEATURED IN A ONE HOUR DOCUMENTARY

Discovery HD-Theatre contacted Steve Van Dam to film a documentary about the custom wooden boats designed and built by his company in Boyne City, Michigan.

This newly designed 30' cold molded mahogany runabout to be delivered to Geneva Lake, Wisconsin was chosen as the subject for the documentary and was hosted by Steve Thomas (This Ole House, Renovation Nation). With extensive boat building experience of his own, Steve Thomas reviews Van Dam's time tested cold molding techniques and occasionally rolled up his sleeves to lend a hand in the boat's construction.

From the first meeting with the client, all through design, construction, sea-trials and a hair-raising delivery, multiple high definition cameras were there to capture the spirit and craftsmanship that goes into every facet of a custom Van Dam boat's creation.

The show culminates with a beautiful launch ceremony hosted by Gage Marine and aerial photography of the newly launched runabout plying the waters of Geneva Lake, Wisconsin.
